## WINTER WATCH

### *Complete Off Season Protection Plan for your Pool and Spa*

QUALITY POOL CARE, INC. will help to protect your investment by performing the following services during Winter Watch:

#### **Cover:**

- Removal of excessive debris or water from top of cover
- Inspection of cover to ensure the cover is secure, intact, and in place
- Ensure proper operation of cover pump

#### **Benefits:**

- Help to extend the life of your cover by preventing damage
- Help to keep the highest level of safety around pool / spa in the off season

#### **Pool:**

- Monitor water level
- Test the water for pH, Alkalinity, and Calcium Hardness
- Adjustments will be made according to findings, chemicals used to balance water are included in price

#### **Benefits:**

- Help protect pool coping and tile from high water level
- Help to protect the interior finish of your pool by preventing sprawling, scaling and water line ring / stain
- Help eliminate time consuming and difficult brushing of pool in Spring, and costly chemical treatments

#### **Equipment:**

- Inspection of heater to help prevent rodent damage
- Inspection of equipment to ensure it is in good condition.
- Cycle pumps on to ensure functioning and help prevent seizing.
- Testing of electrical circuits (breakers / GFCI)

#### **Benefits:**

- Help eliminate costly equipment repair or replacement at spring Assembly
